EXPERIENCE EFFICIENCY EXPERTISE

COLLABORATIVE WATER WAT

CONSTRUCTION HAS CHANGED.

Traditional delivery methods can be slow and antagonistic.

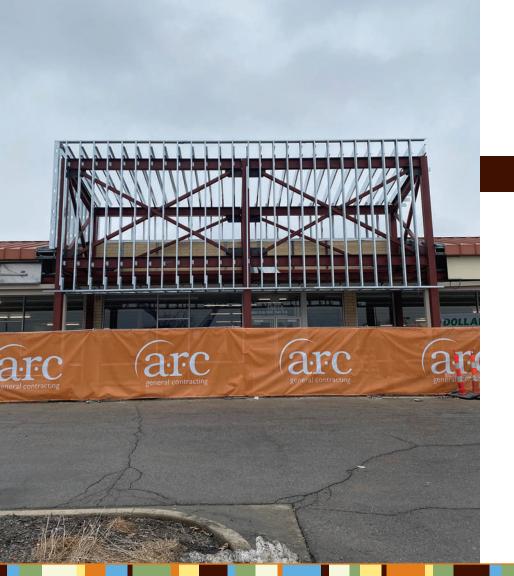

Things have changed.

Good construction is collaborative — with the owner, design professionals, and contractors all working together.

We use Procore extensively to manage documents and information on our projects to better communicate with all parties.

FROM INCEPTION TO OCCUPANCY.

COMPLEX

IT'S NOT THAT SIMPLE.

Construction is thought to be simple.
Uncomplicated. Clear-cut.

In reality, the process is complex. It requires the linking of numerous people and disciplines.

finance
site surveying
communication
schedules and milestones
authorities with jurisdiction
recordkeeping and archiving
owners and other involved parties
project design and engineering
vendors — yours and ours
environmental impact
waste management
organization
tradesmen
materials

We are a general contractor with a professional, pragmatic approach to a complex process. We are experienced, efficient, and competitive.

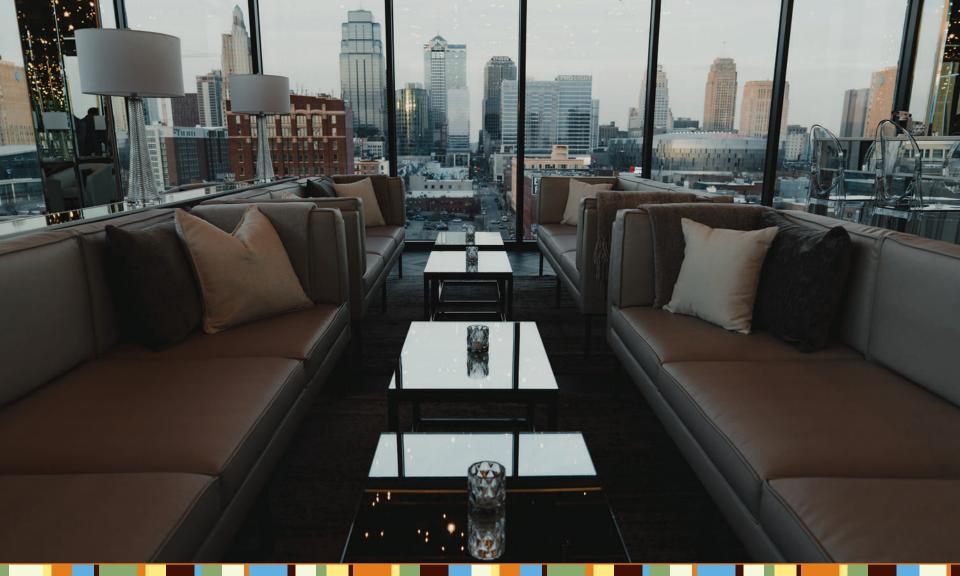

ABSOLUTELY THE RIGHT SIZE

SIZE DOESN'T MATTER.

Our culture is to specialize in both small and large projects because that's what our clients need.

A small project for us would typically be \$200,000 and a large project would be \$5.0 million.

RELATIONSHIPS MATTER

WE HAVE WORKED SUCCESSFULLY WITH

satisfied clients
architectural firms
engineering firms
construction vendors
materialmen
subcontractors

CUSTOMER DRIVEN

WE ARE THERE FOR YOU.

From our base in Kansas City, we serve a six-state region: Kansas, Missouri, Nebraska, Iowa, Colorado, and Oklahoma. Where you have construction needs, we travel.
